

TITANTEK™ ULTRA WAVE Corrugated Panel

The **ULTRA WAVE** Corrugated metal panels are one of the original metal panels used for roofing and siding, and are often revered for their timeless aesthetic. Featuring a repeating sine-wave design, the ULTRA WAVE Corrugated panel can be installed vertically or horizontally, providing a highly versatile option for any project.

ULTRA WAVE panels are quickly and easily installed with exposed fasteners over a solid substrate or open framing. Featuring extraordinary structural stability, this panel is a long-lasting panel designed to weather the elements.

Applications:

- Roof, Wall, Soffit, and Fascia
- Horizontal or Vertical Installations
- Residential, Commercial, Agricultural
- Installs Over Solid Substrate or Open Framing

Accessories:

- S-5 Snow Retention and Solar Attachment Systems
- Color Match Roof Sealants
- Ice and Water Shield Underlayment
- Foam Closure Strips
